## STREET LIGHT PLANS BEFORE CITY COUNCIL

Main st Project Expected To Be Submitted at Meeting Monday Night

### EXTENSION ASKED

New Lighting System from George st to Columbia st Proposed

Council when it meets Monday will probably be concerned with the proposition of installing new street lights on Main st. More than a week ago Mayor Elmer Murphy proposed the installation of the new street lights on the big 1st and 2nd sts on North Main st to Columbia st. Later a petition was presented by property owners requesting the extension of the new lights to George st from the railroad tracks.

In case the proposal does come up before council it is improbable that an action will be taken other than to refer it to the lighting committee for investigation.

Extension Likely

When Mayor Murphy originally proposed the installation of the new lights from the railroad to Columbia st it was his intention to have the system extended along the section of Main st which is to be re-paved.

With the presentation of the petition however it is probable that the new lighting system will be extended north from the track to George st.

The lights for the proposed improvement are the same as those now in use on West Center st.

In a council enacts the necessary legislation for installing the new street lights Mayor Murphy plans to have the work completed before resurfacing the street is started.

Other Legislation

Council is also expected to enact legislation authorizing city officials to begin operations for amending Lake st. Maples st. and Chicago st.

and for constructing the Homer st. sewer. Legislation for improving Homer st. Pennsylvania st. and West Center st. from Oak st. to Main st. was completed at the last meeting of council. City officials are now advertising for bids on the projects. The bid is to be opened in the city engineer's office at noon April 2.

The formation of a commission to license motion picture operators has been delayed until again Monday night.

## AUDITOR CERTIFIES TAX DELINQUENCIES

62 Tracts in County Subject to Foreclosure Sale by State

Delinquent tax due on tracts of land in Marion county on which taxes have not been paid for the last four years amounts to \$161,618. The names of the delinquent taxpayers and the land on which they have not paid taxes have been certified over to the auditor of state who may order the land sold for the taxes at auction.

There are 62 tracts of land on which taxes have not been paid during the four year period. This is approximately twice as many as are usually certified to the auditor from this county. The large number is explained by the fact that 10 of the 62 parcels of land in question are owned by one person. However the taxes do not aggregate a large sum as the largest assessment due for the four year period is \$54. The 60 lots listed under the name of the one owner are located in the city of Marion.

The tracts of land were certified to the state auditor yesterday by Auditor Thomas who had just completed the computations covering the four years of unpaid taxes and the infers etc due on each tract.

The largest delinquent amount was \$20,000 and the smallest was \$1.

### WILL REARREST

Police Chief Says Rum Prisoners Won't Gain Liberty

YOUNGSTOWN, March 20.—A decent Police Chief Englehardt declared today when informed of Municipal Judge Peter E. Mulholland's intention to release all rum prisoners from the county jail that if he prisoners are freed he will immediately rearrest them while the state law is.

Approximately 50 persons, 30 of whom are in jail and 20 who face imminent trial are to be freed today if Judge Mulholland's plan goes through. The case is a result of the decision Friday of the appellate court holding Youngstown's city liquor ordinance unconstitutional.

WOOSTER, March 22.—For sure I kissed her.

That was the answer of a young Sir Knight at Kenwood Lodge, Wooster College, although it was procured under extraordinary torturing which might rule it from evidence if taken to court.

The matter came about this way. Dr. H. A. Willman, college physician, discussed a certain young lady in the institution to be suffering with diphtheria. She was immediately taken to the college hospital. It was after midnight.

The doctor secured the names of

her female companion, with whom she had been in close association for several days. They too were ordered segregated from the main students until it could be determined whether they were to be infected.

At that time Dr. Willman was in the case of young folk who go to college with young ladies.

Holiday dates recently.

As last night was the response given to the name of the young man in the case the physician turned to his medical ledger—the menu of diphtheria. The menu was simple, a simple one his face clearly showing the pleasant hours with his date earlier in the night.

He said the doctor shouted:

“Kiss her. You were I kissed her, came the dazed reply of the young man who was consciousness he was really sick. Put who the—want to know?”

As to the reason why the young man was confined in the college hospital:

Controversy Over Race Gets Before Ohio Supreme Court

**COLLINS** March 23.—The legal battle between Grover Pearson, sheriff of Collin county, Ohio, and the commissioners of that county over an old mill race was carried to the Ohio Supreme court here today.

Pearson appealed to the highest court in the state asking for a reversal of judgment of the Shelleys county courts which rejected his application for an injunction against the county commissioners.

He sought the restraining order to enjoin the commissioners from constructing a drainage ditch which diverted water from the race beside his road onto a 12 acre tract of land.

Greer claimed the water would render the mill race worthless and the land unusable for farming or stock raising.

## CITY COMMISSION RECEIVES PETITIONS

Transfer of Land to Commercial District Sought for Filling Stations

Whether two lots of land now in the residence district will be transferred to the general district to permit the erection of gasoline stations will probably be one of the problems that will confront the city planning commission when it meets next Wednesday.

Two petitions are now before the commission requesting the transfer of a tract on Union Street between Main and Broad streets and another on East Center Street, both of which want the lots transferred from the residential district to the commercial district in order that automobile service stations can be built.

The commission will consider petitions from persons interested in filling stations on the lots of the old Wesley Methodist Church on the corner of North Main and George St.

## Battle of Bullets

**Successful Mexican President Is One That Can Kill Off Patriotic Generals Fast Enough, Will Rogers Says**

BY WILL ROGERS

A Mexican Revolution

**N**OTHING has gained so much here as the League of Nations and is known as nothing about as this Mexican Revolution. Hooper has been sworn in as one of the leaders of an hour till the desire to be President on the part of Mexico broke out. It just looks as if he had no right to be in Mexico, so they started a revolution to the north and said come on to be inaugurated here and on the to be personal belongings to the President of Mexico.

Up here in our Country every day it is taught he some old dapp'd and sonner that any one of you is as he the chance of becoming President provided you were born in the right part of the Country and were not born of Democratic parents. We are taught that from birth and some of the more feeble minded ones take it seriously and start to prepare by reading what Washington did and what Lincoln did and what Roosevelt did. And as a matter of fact no one of the whole thirty of them that we have had ever fit any of the offices of the prospecte. (And this is true of them from the time of the first to the last.)

What to do and who to do it to and

Besides I go down there it'd be take long to see what he was faced with. He was out and up to one of the generals got too full of his mouth and this Mexican left him.

We had a lot of would just play a game. He would see if anyone could catch him. Once he was caught in front of a door he would be some other fellows playfully tried to blow him over with a series of bullets. In that way he learned what has to be known to live for about 30 years. A lot of men under his administration seem like it will get around. There is no doubt he had an idea that he would be the father of one than the world would soon be removed to be spoken in his native land. Am I right?

Diaz Made Mistake

There was no armament or forces in League of Nations. The world Court. I feel in Mexico is just a perpetual peace outside of just being generals. One day in the usual routine of have you any. We age 24 would like to have a gun. I think he gave a fellow a bullet instead. This was his last mistake in 30 or 40 years. He was acting old and his judgment was a fault. Instead of referring himself to his own standards it's a part of the usual war who he is to him self.

General's Death

Now in Mexico the base their fair tales that are told to the children the same as we do here. Where we are taught that every boy is to be a noble President the rough. If my aman in his out and I can't get them before the me. I am afraid can be President in all. Now we have come to

in all a Cuban named Hurts can

and until Pachito Valls saw that the

the world a new character for

Hernan Flynn so he charges int

Cuba New Mexico one night and

that gave us a chance to see Mexico

first before going to the

Rehearsal for War

So our troops went down and used

Mexican Presidents and we're

overseas. Somewhat Mr. Madero

and his Vice Pres. Soto were

being transferred from the White

House to the jail and came to a

dead end by music. Hurts

was a popular known about

it and was very surprised

at a strong house Pres. We

then when the wife of Mexican

that she had to do to live life

was to shoot the one who was

that house on some pretty nice

Caranza of it. Caranza started his

whole marksmanship. Vito

had him. As a old gun and he

the bad as ammunition.

Then Oberon comes into the

case. Up to then he was an An-

tonio but entered in career. He

is a son but old man Diaz knew

he that he was a good man

he was a good man when he

leaving was good. Hurts used

the same theme for the same case.

He uses it to get jobs. Instead of

Mr. Caranza in red Iris Chapultepec Castle whiskers and all. In

the Revolution broken up in the

State of Sonora where principal

product is Tequila. Valls and

Oberon were sent to either assist

or hinder it but at any rate it

let it stand. They fell

in each other on the way and

started one between themselves but

they had to be in Oregon. Last

year was the last year of the

battle of Oregon. Last year was

the last battle.

Oberon Elected

Then Zapata come along. (What

means show.) Well he walked into

personally contacted. They let him

in. Then another Hurts

Adela. (It's your relation to the

other one.) He takes out a Re-

Louise permit and starts running

about. This time Caranza died. But

it's a natural death in Mexico he was

shot practically talk. He la-

ughed. He was only supposed to

be President until 1931. That is

present until he was shot. Hurts

is thrown out. Oberon is ho

now to be an electric something

unheard of up to then. That was a

new way to get to be free. But

he really wanted to try that so an

other man from Sonora, Diaz, Calle, fell in in Obregon. (An

Servants claim to have discovered in cow's milk traces of radium and one of the elements which are employed in the making of red fire. Still there are many agencies far superior to milk which may be employed by those finding themselves possessed of a desire to kill all lit up."

If we are able at this distance to get the true feeling of the German spas Mr. Trotzky is just as welcome to any of them as would be an epidemic of smallpox. His repute is getting to be a serious consider for speed bombers against a lie.

Having impeached the governor out there the Oklahoma house of representatives is now seeking to impeach three judges of the state supreme court. The world will soon begin to lean to the view that the Oklahoma legislators are the victims of a habill.

An anti daylight saving bill was killed in the New York state assembly by the votes of the city element of the body. New York will stand for a lot but she draws the line at attempting to encroach on her daylight saving and six day bicycle races.

A Hartford City man hanged himself when his wife scolded him for dropping ashes on the floor in building a fire. Were all men as sensitive as this Stoosier. It would not be long till the entire world would be depopulated.

It looks very much as though the demand on State Senator Kunkle that he should move to reconsider it was the thing that finally did the business for the klan endorsed Clark alien labor bill.

A warrant has been issued in New York for Gertrude Lederle as a result of her second failure to appear in court and answer a charge of speeding. It's sad but a fact just the same that publicity often goes to people's heads.

The February production of sugar in this country was \$66,199,320 an increase of \$31,000,000 over the production of February, 1928 on which the tax was \$1,155,621 making the tax collected for the first eight months of the fiscal year \$2,105,308 is compared with \$188,110,200 for the same period last year. Honestly isn't there grave danger that the country may become addicted to the habit?

## Second Seaport of the World

Hamburg is again back in the place she held as a seaport for a brief period just before the war. Today she stands second in New York alone among the world's seaports.

Germany has staged remarkable come backs in many lines since the war but none of them is to be compared with the amazing recoveries of Hamburg as a seaport. The tonnage entering that port last year was 21,185,000 over 500 per cent greater than her heaviest pre-war tonnage—11,000,000 in 1913.

Hamburg's tonnage was so nearly eliminated by the peace terms that it amounted to but 1,148,000. By 1925 it had mounted to her highest pre-war total and since 1926 it has gone up by leaps and bounds. A little over a year ago Hamburg stood fifth among the great seaports, but during last year 1,265 vessels entered the port in an average over the year before. While she was making this gain eighty five fewer vessels made port over the year before and 861 fewer than the total of the preceding year made Rotterdam the result being that Antwerp lost 1,500,000 tons and Rotterdam nearly 1,000,000. And while passing these two ports of Belgium and Holland she nosed out London as well with the result that the leading five seaports of the world today are New York with a tonnage last year of 39,000,000; Hamburg with 21,185,000; London with 13,137,000; Rotterdam with 20,1,000 and Antwerp with 20,055,000 tons.

Hamburg has a long way to go before challenging New York for first place honor for the latter port last year made the remarkable tonnage gain of 5,000,000, but all the indications are that the big German seaport has a firm hold on second place. When it is considered that she came up from 1,448,000 in ten years to 21,185,000—a gain in the ten year period of 2,000 per cent—it must be recognized that it was more than luck more than chance that gave her the proud place as a seaport she holds today.

## "Real Wage" Comparisons.

The "real wage" Conference was of New York and has just given out some very interesting figures on the relative wages paid in the U.S. and European countries. In the prices of food and rent, Hitler says that the purchasing power of American wages thus increased an additional one and a half times during the 1928-1929 period of last year in the various countries of Europe. The data is of foreign wages is based on figures given out by the International Office of the League of Nations.

The American wage earner's purchasing power according to the board's statement not only remains considerably higher than that of his fellows in foreign countries but he is between the American and foreign purchasing power of wages is measured in buying food and shelter in their own countries has notably fallen during the last three years.

The board's figures show that the greatest changes in the relative value of real wages paid in foreign countries to the value of real wages—wages figured by their purchasing power in food and rent—during the 1928-1929 period were in Denmark and Canada. The American wage earner's position showing improvement over the position of the wage earners of both those countries.

The Canadian real wage in October 1928 according to the statement was eighty percent of the American real wage, but just eighty-eight per cent in October 1929 and the Danish was fifty-seven per cent of the American in October 1928 seven per cent less than in October 1929.

The real wage in Great Britain and Sweden showed no change in relation to the American wage being thirty-five per cent and forty-six per cent respectively in the same month of the years 1928 and 1929. The German wage also held closely dropping only one per cent in the three years to thirty-four per cent of the American wage.

The statistics which were gathered in either the chief or a representative city of each country give the following comparative prices on a given lot of specified provisions in September 1928. In the following cities Philadelphia \$2.20; Liverpool \$1.90; Copenhagen \$1.83; Vienna \$1.60; Berlin \$1.76; Dublin \$1.72; London \$1.61; Rome \$1.74; Amsterdam \$1.45; Warsaw \$1.48; Prague \$1.36; and Brussels \$1.22.

This it may be seen the stories of the cheap living to be had in foreign cities is largely illusionary when the same quality of living is enjoyed. For example while the London wage earner pays but \$1.61 for the same food which costs the Philadelphia wage earner \$2.20 he draws but thirty-five percent of the American worker's wage. The wage earner of Sweden gives thirty-seven cents on a given supply of food but he draws but forty-six per cent of the pay of the American worker and the story is the same all up and down the list.

Never in the history of the world was the condition of the wage earner so good as that of the American wage earner today. It has attracted and holds the attention of labor the world over.

For only one day out from Lisbon and with starvation facing them the seventy year old captain and crew of two men who rescued the middle of the Atlantic by a Spanish steamer from the twenty foot lifeboat in which the three attempted to cross to the United States. Mr. Burroughs was far too convalescent.

George Jenkins has been awarded a writ of replevin to recover \$8,000 worth of his household goods which were secreted by the heirs of his wife. Wonder how many of his former patrons if any have survived the drinking of his wife's household goods worth \$8,000?

The corn growers of the dry Middle West are seeking a tariff of thirty-five cents a bushel on corn that foreign corn may be excluded and thus make it easier to raise the price on the markets of corn where who supply the hoover trade. Our effort to make the country buy it certainly results in some amazingly bad situations.

You never can tell Major W. N. Neasey forty-eight of the army air service in aviator and the American representative aboard the British dirigible. It is when it made its flight to this country did thus day about a train near Bruxelles. This was as he former governor.

of State Organization

Club women in Marion, as will all communities in the state, are to be coming more interested each day in the activities at Dayton, the host city for the 1929 thirty-third annual convention of the Ohio Federation of Women's clubs.

Mrs. W. N. Harder, of this city, state president of the federation, has announced through "The Buckeye," official publication of the Ohio Federation of Women's clubs, the program for the week of April 22-25, set aside for the convention.

Notable speakers will address the women during the convention and one of the surprise announcements for the four-day meeting is that made by Mrs. Harder today to Marion Star.

Six men and women from the Bureau of Aeronautics at Washington, D. C. will go to the convention city on "Dayton Night" to talk to the federation women on the problems of aviation.

**Headquarters Chosen**  
The Miami Hotel has been established as headquarters, and Memorial Hall will be used for several of the sessions. Lunneborg, palatial home of Mrs. Talbot of Marion, has been opened for the pleasure of delegates.

Endurance is built right into our poured concrete blocks in our modern factory.

EASTON NOS MEETS

April 8. This will be a "get acquainted" meeting for the members, and for presentation of the first club program.

The purpose of the circle and league is to protect, strengthen and bring to full fruition American child life which the league recognizes as the most potent factor in the progress and development of the nation, and to help the mothers in a practical way to establish a true democracy among American motherhood.

The work here has been in charge of Mrs. Mary B. Norman, national organizer with headquarters in Columbus, assisted by Mrs. Gertrude Greeley, of Chicago.

ALL-DAY MEETING IS HELD BY CLASS

The Loyal Women's class of the Central Christian church met Thursday in the church parlors to enjoy an all-day sewing and pot luck dinner. The morning was spent knitting comforters, and following the dinner, a short business meeting was conducted.

Mrs. Frank Fairchild opened the meeting with a scripture reading, and Mrs. Frank Thow led in prayer. A song, "Carry Your Cross with a Smile," was sung by the members.

Mrs. Ella Boyer, member of the flower committee, resigned her position, and Mrs. C. W. Swisher was appointed to fill her place. The next meeting will be April 15 at the church.

EAGLES' AUXILIARY TO ATTEND MEMORIAL

Four applications were balloted on, one candidate initiated and one application for membership received, at a meeting of Eagles' Auxiliary of Bartles Ave. No. 237, last night in the Eagle hall. Plans were made for a benefit card party Thursday night, April 1. The women will attend the Eagles' memorial service Easter Sunday in a body, according to an announcement made at the meeting. A regular meeting will be held April 12.

**Just Things**

BY EDNA S. DILTON

**Would You?**

DID YOU know when you were a youngster, to work in a candy store or a place where they sold candies just so you could have the sweets you wanted or if you indulged your fancy for dollars, or the last word? And now did you feel that if you owned a candy store or you'd have a new marble counter, or if you owned a photo gallery you'd have a new picture every week, or owning a book store, browse to your heart's content, all the best sellers, or owning a picture store have a new ring or watch every other day at least? It would be a

world of fun.

**Chimes Program To Be**

FEATURE MONDAY NIGHT

**Presented Over Radio**

BY MAY L. ROY

THE music of chimes distinguishes the voice of Ernestine Herodes over the WEAF network of the NBC system at 8 o'clock Monday night.

The Chimes Group consists of Planquette's Chimes of Normandy and 11 Bells of St. Mary's by full orchestra with Franklin Fair singing. Temple Bell from New Bedford, Mass., joins it on Monday nights.

In the Classical Group, this program will be heard Monday night "Mid Summer Nights Dream" and there will be the usual popular and home fare prepared by Mr. Eric and Virginia East.

**VATICAN ITALIAN ACCORD DISCUSSED**  
THE differences of the new accord between the Vatican and Mussolini will be discussed by James C. McDonald in his next broadcast. The weekly series "The Will To Win" over the WEAF network of the NBC system at 7:30 Monday night.

No political event since the war save Mr. McDonald has attracted wider attention than that announcement a few weeks ago that the Vatican and Italian government had finally reached an accord.

For more than 50 years—until 1870—the unification of Italy, which involved the absorbing of the Papal state by Italy—the Popes have all considered themselves prisoners in the Vatican. Now through a series of three agreements all of the outstanding questions between the church and the Italian government have been settled. The Papacy is to be reestablished as

Measure

MARION, March 23—Defeat of three censor bills, public hearing bill, Ne-reading Bill, and the initiated measure which would have prohibited chiropractors from separating fees.

rate state licensing board featured killed the chiropractors' bill. The deliberations of the Ohio legislature session also defeated the Akerman bill which would have permitted counties and municipalities to penalize corporations for expenditures to promote their own purposes, and the Ingalls bill regulating the use of expert witnesses in medical cases.

The Senate defeated the Clark bill to have been supported by the Kline Klan, prohibiting employment of Negroes in public works, and the Foster joint resolution proposing an amendment to the state constitution so as to permit the merging of counties.

Major measures passing the senate this week include the Hinde joint resolution, proposing a constitutional amendment permitting limited classification of property for taxation purposes; the Herbert act amending the "Hoover" act by throwing additional handicaps on the directors of foundations; the Marion bill reclassifying the state's general appropriation bill; the Johnson bill increasing compensation for discharged veterans; earlier, the Akerman bill increasing the pay of guards at various state institutions; the Johnson bill enlarging the power of the state utilities commission to require public utilities to install safety devices; and the Mrs. Van Wert bill setting up a centralized parole board in the state welfare department.

## Critic Says Theater Needs Tonic; Holy Week Brings Unusual Bills

BY JACK

now adds an unforgettable portrait of the melancholy Norwegian's "The Lady from the Sea."

At all the three plays produced within my not-ashamed date, "The Lady from the Sea" is least satisfying. Whereas the other works, especially the latter plays—John Gabriel Borkman," "The Master Builders," etc.—are steeped in deepest symbolism and imbued with delicate threads of obscure suggestion which trace a pattern fully intelligible only to the most sensitive souls, this piece is as obvious as a candlestick platter. Its plot is ticked off with the same regularity as a well-worn metronome, and its solution is as commonplace as plucked cabbages. Pedantic is perhaps the best adjective to describe it. Let it remain a sturdy vehicle, a shining example of play-writing economy and precision. Against the colorful warp of Miss Viola's performance stands out in gloomy relief.

"The Lady from the Sea," in case you do not remember, discusses the problems of an emotionally harassed woman who cannot put out of her mind a lover she has put out of her life by marrying another.

MISS TURKA gives a stirring performance in the title role. She breathes reality, and despair, and blood, groping here into the macabre tones of the author's script. She exalts Viola's bewildered purpose, lifts her up and makes her problem seem much more important than it really is. And in the end, when the play arrives at a manifestly counterfactual solution, she manages to preserve the dignity of the drama, and to make its argument seem much more plausible than it really is.

# Divorce and Birth Control Assailed by Priest Urging Permanence of Marriage

Evil of Divorce Pronounced a Scandal in Annals of Christianity in Sermon by Father Olson at St. Mary's Church Deplores Tragedy of Criminally Childless Unions

Assailing the evil of divorce and insisting that there is nothing more than legalistic triviality in attacking birth control as the root of the trouble with our marriage system and pleading for a return to the true conception of Christian marriage, the Rev. Father William J. Olson O.P., here second term last night in the retreat being conducted at St. Mary's Catholic church by Marion Knights of Columbus.

Nearly every conceivable and inconceivable school of thought has tried to answer the divorce question. Father Olson said: "Divorce," he said, "has assumed the proportions of a scandal in the annals of Christianity. This nation, he asserted, leads the world both Christians and pagans in broken hearts and broken homes."

**Emptied of Sanctity**  
The non-Catholic world "thought it was divine," he said, "but I think it is plain it is unnatural to anyone both in nature and of the end of marriage. There is need of a complete revision of the current popular opinions on the important matter of the stability of marriage, that marriage is a sacrament (excluding natural birth) and that the primary and central object of marriage is the procreation of the human race."

**Cause Explained**

What I am going to say is greater than 95% of men and women

The Superior Roofing Co. one of Marion's newest business concerns and the only firm of its kind doing exclusively roofing business in the city, as it not only supplies the necessary roofing, but its experts advise on the same. As well as located at 140 North State St., A. L. Kessler, its owner, has spent 21 years in the roofing game, and knows his business in all its phases from the manufacture of roofing materials to the way it should be correctly applied.

Mr. Kessler previous to his coming to Marion was located in Louisville where he had been the last seven years. During that time he worked for one of a branch territory, but through frequent visits to the city he became convinced that Marion had a great need for the particular line of business he has brought here.

### BUILDING PERMITS ISSUED FOR HOMES

B. G. Campbell Listed for Four New Dwellings in Week's Record

Permits for four residences to be constructed by B. G. Campbell, local real estate dealer and builder, boosted the total amount of building permits for the week to \$116.00. The permits were obtained Thursday.

The residences for which Campbell obtained permits will cost \$12,000. Three of them are listed at \$3,000 each and the other at \$4,000. Campbell also obtained permits for the construction of five garages which will cost \$140.

Although numerous Marion realtors and builders have outlined plans for spring and summer building, Campbell is the first to start work on an extensive project. According to a statement made today he has closed out all his 1929 houses.

Other permits issued during the week include six garages ranging in value from \$4,000 each (valued at \$2) and two porches valued at \$1 each.

#### Relief Character

The appearance of your roof should be a matter of personal pride as the outside of a home reflects the character of its occupant. If the roof is sloping the chances are that its owner is according to public opinion asphalt roofing assures an attractive durable fire and weather resisting roof which should be a matter of civic pride as well as practical utility.

Improper roofs are prone to many fires particularly at this time of year when the weather is changeable and furnace fires are built up quickly to stave off the cold breeze.

In March 1928 there were 1,000 fires in Marion. In one day last year there were six home fires to be next. Prevent unnecessary losses by having your roof properly cov-

### MEAT PRICES RISE DURING LAST WEEK

General Upward Movement is Main Feature of Local Market

This week saw meat prices move upward to figures from which they have not yet bough leaving the Marion meat market at a high point for this season. Marked increases were noted in nearly every meat item belief from these prices is predicted for next week.

This week saw the inaugural appearance of rib of rib at 16 cents a bunch. This will offer many dishes for change.

Strawberries have not appeared in large quantities as yet and this fact accounts for the price which remains around 50 cents a quart. There are quite a number of berries being sold at this price however.

I get the bottom of the eggs drops they made last week in finding at 27 cents where they have since remained.

Buyers of fresh and seasonal fruit and vegetables have anxiously awaited the appearance of Marion county product which is scheduled to make its appearance within a few weeks. On such items as strawberries local growers will produce a sufficient quantity to bring the price within the reach of everyone.

### LAND SHARKS HIT BY BLUE SKY BILL

Proposed New Law Requires License for Sale of Realty Outside Ohio

COLUMBUS March 23.—Land sharks and promoters of get rich quick land developments in other state will find business tough in Ohio under the proposed new Blue Sky law which passed the Senate Tuesday by unanimous vote according to T. W. Jacobs of Marion chairman of the legislative committee of the Ohio Association of Real Estate boards.

The new Blue Sky law known in the legislature as Senate Bill Number 12 when first drawn and submitted did not contain any regulations and restrictions on the sale of foreign real estate in Ohio. This fact brought such strong opposition from the real estate men editors and the public in general that an amendment was drawn to take care of the situation.

The amendment provides that persons or firms dealing in real estate located outside of Ohio shall first obtain a license and then before offering any land for sale must file with the securities department an exact description of the real estate they are seeking to sell together with a map or plat of the ground. In addition there must be filed a list and description of all liens and encumbrances on such real estate description of all improvements of every nature to be made building restrictions copies of contracts to be used schedule of prices and commissions and any other information requested by the department. The names of the owners with complete information is in their financial responsibility must also be furnished.

If the commission is not satisfied with the above information it is authorized to view the land and verify the statements made and the expense of such investigation up to \$500 is to be borne by the applicant.

The restrictions set up in the new Blue Sky law do not apply to real estate situated within 20 miles of the Ohio state line.

The division of securities has been very strict in the past on the certification of foreign real estate to be offered for sale in Ohio. It has been next to impossible for a land company to sell foreign real estate to a resident of Ohio unless the prospect could be induced to visit the property and could be closed while out of the state.

NEW YORK, March 23—More of the industrial stocks which were under pressure at the last day or two dipped to lower price levels on the week end market. The bears once more had the advantage of poor support for the speculative favorites when stocks were offered lower prices when bid and that determined the direction of the market.

Though business news at the week end was favorable on the whole, Wall Street's nerves were on edge on reports of the piling up of automobiles in the dealer's hands and consequent falling off in the demand for automobile steel at Youngstown and other manufacturing centers. Copper metal was quoted at 21½ cents a pound for

## The Chemist's Test Tube Reveals the Seriousness of Kidney Trouble

And that's just the trouble—in far too many cases patients neglect their health until they learn they have serious kidney trouble in the course of detailed diagnosis by a physician—too late, in a number of instances, for them ever to regain robust health.

It is said 80 persons out of every 100 dying are afflicted with kidney trouble and 33 out of every 100 rejected by life insurance companies are afflicted with kidney trouble.

The kidneys are vital organs of the body the most neglected and susceptible to the most dangerous of diseases. Let us see why through a comparison.

The liver is a vital organ but with cancerous and tubercular cases excepted few of the disease cases are fatal. And this simply because liver troubles are usually given immediate care. A diseased liver throws impure bile into the digestive tract. Impure bile creates nausea and sickness, and a sick man doctors himself.

With ailing kidney conditions are often in direct contrast. Kidney trouble may exist without the patient's knowledge. He may be suffering from an incurable disease and consider himself in health.

The symptoms you must watch for are backache, listlessness all in feeling two frequent or insufficient filtration of bodily impurities.

Kidney disease cases are on the increase in Marion County.

The Marion Service Drug-Stores recommend Juniper Pills Compound as a safe diuretic for the early symptoms of ill health that strengthens and regulates these vital organs and places sufferers on the road to rapid recovery and health.

### DASHES INTO FINE

Auto Racer Speds 90 Miles an Hour but Is Captured

FREMONT March 2—William Sullivan, 24, of Salem, O., who says he holds the world stock auto racing record at the Daytona Beach (Florida) speedway, led Deputy Sheriff Joe Storner and Patrolman Bill Clark of Fremont in a race yesterday at more than 80 miles an hour on the Marion highway east of here before he was arrested on a charge of reckless driving.

Driving a coupe prepared for his speed Sullivan said later that he drove between 88 and 90 miles an hour in an effort to catch a thief. He was overtaken when other traffic in the highway met with him and he was forced to stop and give up the race.

### FREED IN KILLING

Dayton Man Acquitted by Jury, Was Once Convicted

DAYTON March 2—After being held in jail for a little more than a year, J. L. Charles J. Bell, court reporter at the time of the killing of Mrs. Lillian Freeman charged with the murder of L. L. Williams, a William Hart, was set free today.

In a trial, real Freeman was found guilty of first degree murder and was sentenced to be electrocuted but the Supreme Court ruled that the trial judge erred in giving the jury and required it to start over again.

The defense was that this was in keeping with the law of the land.

Los Angeles March 2—Phil Jones, 26, a man and Al Wilson, 26, of Los Angeles, were arrested by police with 100 pounds of dynamite when they were using it to blow up a house near Van Nuys Cal. where they had been living and crashing after a fight.

Jones told police he had been
